Top Skills

Microsoft Azure
Java
REST APIs

Languages

English (Full Professional)
Japanese (Limited Working)
Swedish (Native or Bilingual)

Simon Jern

Software Developer @ Netcompany
Malmo, Skåne County, Sweden

Summary

I am a passionate, dedicated Software Developer with a Bachelor's
degree and experience in multiple projects. I thrive working in teams
with colleagues who also love to design and build the best possible
systems.

My academic journey equipped me with a deep understanding of
object-oriented systems, full stack web development, and proficiency
in languages such as Java, C#, Kotlin, Python, and JavaScript. I've
been working hard to deepen this knowledge in my professional
experience.

Before transitioning to IT, I worked as a Training Manager, where I
educated and mentored new staff while streamlining operational and
financial processes. This role sharpened my leadership skills and
ability to handle complex challenges efficiently.

My years in Japan enriched my professional and personal life,
instilling a robust work ethic, adaptability, and cultural sensitivity.
Fluent in Swedish, English, and Japanese, I excel in communicating
across diverse teams. My background in game and interactive
media design brings a unique perspective to development projects,
blending technical expertise with creative vision.

Experience

Netcompany
Software Developer
June 2024 - Present (2 months)
Köpenhamn, Region Hovedstaden, Danmark

Freelance
Java Programming Instructor
September 2021 - Present (2 years 11 months)

I provide tailored Java programming lessons to diverse students, from children to university level. I teach Java concepts, develop curriculums and offer assignment support.

Malmö universitet
Course Assistant
November 2023 - February 2024 (4 months)
Malmö, Skåne län, Sverige

Assisted the professor in a course about web services. Grading of projects and essays about REST API:s, Web Services and others.

Surf Shack
3 years 6 months

Training Manager
September 2019 - March 2022 (2 years 7 months)
Sweden

As the Training Manager for Surf Shack, my primary responsibility was to educate and follow up with new chefs, service staff, and managers across the entire organization. I also played a key role in franchise development by working on personnel structure, policy creation, and digitization of work processes.

In addition, I was responsible for the most successful unit within the franchise, which entailed handling scheduling, budgeting, HACCP, quality control, ordering, customer support, and much more. At this unit I significantly lowered the waiting time for the customers, raising the overall customer satisfaction.

Restaurant Manager
October 2018 - September 2019 (1 year)
Malmö, Skåne County, Sweden

I was responsible for overseeing daily operations and ensuring the delivery of dining experiences to our guests. My duties included staff management and development, inventory control, financial performance analysis, and maintaining compliance with health and safety regulations. I played a significant role in driving sales growth, customer satisfaction and continuous process improvement.
